

Workshop Program Description

The Texas Board of Nursing (BON or Board) recognizes that the Advanced Practice Registered Nurse (APRN) is challenged as never before with the evolution of the health care industry and meeting the needs of patients. The APRN must keep up with changes to national standards in education, certification, and scope of practice. APRNs have a licensure responsibility to know and conform to the Nursing Practice Act (NPA) and Board rules and regulations. A lack of knowledge regarding the APRN's professional licensure obligations under the law may result in disciplinary action by the BON.

This all-day workshop will provide information regarding the nursing licensure laws that serve as the foundation for the APRN's practice in the State of Texas. Workshop participation will contribute to the APRN's ability to understand and follow the Texas nursing licensure laws, which in turn will promote the Board's mission to protect and promote the welfare of the public. Key concepts that will be highlighted throughout the workshop will include an overview of the Texas Board of Nursing, Scope of Practice based on Education and Certification, Prescriptive Authority, Consensus Model, Standards of Practice, Unprofessional Conduct, and Core Standards for Advanced Practice.

****New – Electronic Handouts Only****

In order to save precious resources, the BON will no longer provide paper handouts. Instead, a link will be provided in your email confirmation, prior to the workshop for you to obtain all the materials and supplemental handouts for this workshop. Please remember to download, print and bring with you a copy of the handouts if you would like to take notes during the workshop.

Nursing contact hours have been applied for through the Texas Nurses Association, an accredited approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Objectives

1. Discuss the Nursing Practice Act (NPA) and Board Rules and Regulations as they apply to advanced practice registered nurses.
2. Identify the guidelines for determining the professional and the individual scope of practice for the advanced practice registered nurse.
3. Apply the Standards of Practice and the Unprofessional Conduct Rules for the advanced practice registered nurse by analyzing case studies for potential nursing practice violations.
4. Discuss the Consensus Model for the advanced practice registered nurse regulation in Texas.
5. Summarize the investigatory and disciplinary process for handling a complaint filed against an advanced practice registered nurse.
6. Describe how the peer review process is applied for review of advanced practice nursing practice.
7. Discuss the advanced practice registered nurse's use of prescriptive authority.

Pre-Registration - \$109.00

At-the-door Registration - \$125.00

Walk-in registration is limited and cannot be guaranteed.
